

Foster Application

Foster requirements:

- If you still live with your parent/legal guardian, he or she must fill out the application.

That said, we do offer school credit for fostering and volunteering inquire if interested.

- Please make sure if you rent or live with others that they are 100% ok with you fostering before taking on the responsibility. Kitten's cry continuously. Also some others are allergic to Cats or might not like cats as much as you do so please confirm that everyone is on board with your fostering cats beforehand. We want to make this a happy experience for everyone involved.

In order to complete requirements for fostering we need to check out where the cat will be temporarily living. We personally deliver all of our rescues to their fosters to ensure the cats are in the best care possible. It's a standard procedure within all rescue organizations in Los Angeles.

Many of our rescues came from very sad situations so we want to make them as comfortable as possible before going to their forever home so please bear with us during this application process.

We just want to make sure it is the right fit you everyone involved :)
